The text explains the importance of the invention of the safety bicycle in freeing women in the 19th century from only doing domestic duties. The bicycle allowed them to become more socially independent outside the home, and to start becoming more equal to men. (3 点)

## 9. 正答例：

For a long time women had worn clothes which were not easy to move in. Skirts were long and heavy, and underneath they wore tight corsets. These were impractical for cycling, so as cycling became popular women started wearing bloomers which were much easier to move in. (2 点)

## 10. 正答例：

I have had a bicycle since I was 8 years old. It gave me freedom to explore my local area and see my friends in the park. This is similar to how women in the 19th century became freer to travel and meet friends from different areas of their town. As I got older, I could cycle to the train station and the juku where I studied for my high school entrance exams. Cycling is also a good way for me to get exercise! (4 点)

正答例：

Dear Mr Sullivan (または Dear Richard Sullivan),

Thank you very much for your reply.

I am very excited about this opportunity! I really love working with children and plan to be an elementary school teacher in the future.

Here are my answers to your questions.

I started learning English when I was in elementary school, and I recently passed the pre-1st level of Eiken. My most recent TOEIC score was 650. I have used English with lots of foreign tourists in my part-time job and like communicating in English. I also know some Korean, as I took a one-year course in Korean at university.

About other skills, I have been playing the piano since I was six years old. Although I don't go to piano lessons any more, I still practise and enjoy playing. I would like to play and sing with the children if I get the chance. I was good at badminton at school and can play any racket sports quite well.

As for days of the week, I'm available to work any day except Thursdays. I'm usually an early riser so the early shift time would be best, but I am flexible about the hours.

Thank you again, and I hope to hear from you again very soon!

Best regards,

(または Yours sincerely),

Yuko Sengawa
